“SHAIKH CENTRAL SCHOOL CELEBRATES WORLD OCEAN DAY WITH VIRTUAL OCEAN EXPLORATION”

On the occasion of World Ocean Day, students of Grades 1 to 8 enthusiastically participated in a Virtual Field Trip to the Ocean, aimed at creating awareness about the importance of marine ecosystems and ocean conservation. Through engaging educational videos, students explored the fascinating underwater world, learning about diverse marine life, coral reefs, and the vital role oceans play in maintaining the Earth's ecological balance.

The virtual experience also highlighted the growing threat of ocean pollution and the importance of protecting marine habitats from plastic waste and other environmental hazards. The activity encouraged students to understand their responsibility in preserving oceans by adopting eco-friendly practices in their daily lives. Interactive discussions and informative visuals made the session both enjoyable and educational, inspiring young minds to become responsible environmental stewards. The programme successfully fostered awareness, curiosity, and a deeper appreciation for marine biodiversity, reinforcing the message that every individual can contribute to safeguarding our oceans for future generations.
